Out of 182 students only 32% out the survey. They include both 7th and 9th semester students. However, in the second part of the survey less than 20 students have answered the questions making the response rate just over 10%. It is therefore difficult to draw any substantial conclusions from this survey.

63% state they spend 40+ hours or between 30-40 hours. 27% between 20-30 hours, and 6% between 10-20 hours. This is acceptable.

The respondent feel well-informed about coherence between study activities in the semester. The assessment of the academic benefit is a concern. 48% find it to be average, 45% big and 3% very big. However, only 15% of the total student population answered this question.

81 of the respondents (= 22 students) took part in group work while writing projects. 68% states that the group work went well. 18% disagrees or completely disagrees.

69% of the respondents feel well-informed about practical issues.

The physical conditions is assessed very positive.

The evaluation of the study community is positive (72% satisfactory). A majority also agrees or completely agrees (65%) to thriving at their education. Again these numbers are difficult to conclude on as the question only was answered by approximately 15% of the CCG students.
